**Surveyor**

## **Verification extent and result**

---

### **Verification extent:**

At the request of Global Outsourcing/Safe Transfer the undersigned surveyor has performed the following:

20th of April 2018 Witness drop test of Personnel Transfer Basket at the premises of Safe Transfer.

Review NDT reports after drop test.

24th of April Witness floating test of Personnel Transfer Basket at Esbjerg docks.

### **Verification result/comments:**

#### **Drop Test:**

Transfer basket with weight of 2000kg (see picture 1) was lifted to the height of 82 cm from ground before being dropped. (See pictures 3 and 4). Drop test performed with no comments.

Weight confirmed with calibrated load cell (see picture 2).

Measurements performed before and after loadtest. Deviations in measurements assumed due to uncertainty in precision of measurements. Clients measurements stamped as witnessed.

Review of Force NDT report no. 152815 dated 2018-04-25 performed with no comments.

#### **Floating test:**

Floating test performed to verify that the basket can float in an upright position. Transfer basket was lowered into the water and 4 persons climbed into it.

It was confirmed that the basket can float in an upright position with weight of 4 persons inside the basket (see pictures 5 and 6).

#### **Floating drop test:**

Empty basket was also dropped (both upright and upside down) from approximately 1 meters height above the surface of the water to confirm that the basket could float in an upright position after hitting the water.

It was confirmed that the basket returned to an upright floating position after a short period.

This Verification Statement covers only the witnessing of the Drop test and floating test of the Transfer Basket.
